

INDIAN JOURNAL OF HETEROCYCLIC CHEMISTRY

A Quarterly International Journal

Indian Journal of Heterocyclic Chemistry is exclusively devoted to research in the area of heterocyclic chemistry. The journal publishes invited review articles and original research papers pertaining to structure and synthesis, mechanism of reactions, spectral studies, biologically active compounds, bio-chemical studies, physicochemical work, phytochemistry etc. Manuscripts for publication and books for review may be submitted in duplicate to the *Editorial office*. Authors are solely responsible for the contents of the papers and the accuracy of the data therein.

The Journal is aimed to cater the needs of scientists working in the area of heterocyclic chemistry who want to get their quality work published rapidly. The journal is first ever such publication of its kind in India. There are two other such publications one from U.S.A. and another from Japan. Eminent Heterocyclic chemists from India and abroad are on the editorial board of the journal.
